Hall reported on behalf of the Constitution & By-Laws with two items on the agenda.

a. The committee discussed how the by-laws address a situation in which a student marries which may cause a change of schools and how does this affect eligibility. The committee has no recommendation at this time but will continue study.

b. The approved division of softball brought forward the situation where the softball plan is working with the 325 number for Class A and Class B. This may cause some Class B schools entered into coops which cause the total enrollment to exceed 325 to play in the Class A division. Ham indicated if there was not an amendment, Park River would no longer be a part of the Grafton softball coop. Ulland indicated if there is an exemption, it would definitely promote more Class B schools to possibly coop to start a softball program. At this time, the committee has no recommendation. Motion by Helvik to accept the report. Second by Ham and carried unanimously.

Moe reported on behalf of the Officials Committee to discuss the concussion legislation as it relates to high school sports officials with the following recommendations:

- f. This fall, there were ??? who took the online clinics

The Arbiter has the capability of producing a CD which can be made available for coaches in spring sports in which the clinic is online in the fall. More details continue to be discussed. President Swiontek assigned further discussion on the clinic issue to the Officials Committee.

Moe requested additional study on the possibility of rolling rosters.

President Swiontek requested the Board bring discussion of mandatory coaches' education back to the table. Moe indicated they surveyed NDIAAA and the total membership was opposed to a mandate for coaches' education. Martin observed some junior high coaches taking these courses have grown in their confidence level. Martin indicated they waive requiring coaches to take the coaches education course if they bring in coaching background. Hall stated coaches who have been on board a number of years are the more reluctant. Newer coaches have jumped on board on the available courses. The Executive Secretary shared administrators were hesitant to mandate coaches' education because coaches education minors were not being recognized.
