Valley City, N.Dak. 58072

September 1, 2014

The Nedrose School District will be offering grades PK-12 in the 2015-16 school year. We are planning to participate in varsity level sports competition in girls volleyball, girls basketball, and boys basketball.

We hopefully will also field high school teams in girls & boys track & golf in the spring of 2016. This is dependent on having facilities completed by then, along with a coaching staff. We will make this decision next spring and contact you prior to June, 2015.

We wish to continue with our football and baseball cooperatives that exist with Surrey at this time through the 2016-17 school year. We have met with Surrey administrators and they will be submitting our request along with a letter for consideration.

We are hopeful we can field our own 7/8 grade football team in the fall of 2016 and 7/8 baseball team in the spring of 2016, but this is very dependant on student numbers and is difficult to predict this far in advance.

At this time we are requesting that our school be placed in district and regional competition for the three sports (girls volleyball, basketball, & boys basketball), as well as speech, drama, and music. We will allow you the discretion of deciding which district to place us in.

Also we would request that all students in grades 9-12 at Nedrose in the fall of 2015 be treated as freshman for eligibility purposes.
