Dear NDHSAA,

A Sargent Central Public School sophomore student athlete currently has missed over 60+ days of school for the 2017 spring semester due to recurring and heavily doctored medical ailment relating to severe and debilitating headaches. Per NDHSAA Constitution and Bylaws, Section I of Article XIV (Rules of Eligibility) states, “*A student shall have been in attendance as many school days as he/she missed at the opening of the semester.*” Based on the conditions stated, Sargent Central Public School is requesting the NDHSAA to consider the student athletes unique situation and allow the student athlete to compete in varsity golf as the season prepares for the forthcoming state tournament. Sargent Central Public School strongly supports providing the student athlete an opportunity to seek out the emotional, physical, and psychological health benefits extracurricular activities such as golf can achieve.

Thanks,

Daniel Warcken
