

Dear NDHSAA Executive Board:

On Friday, April 3rd, the EDC Track & Field coaches held a *Zoom* meeting to discuss possible ways to be proactive if the 2020 Track & Field season is restarted. We realize this will only occur if high school students return to school for classes in May.

The overall sentiment is that the coaches are willing to do whatever is necessary to salvage an abbreviated season and state meet, which includes flexibility with scheduling and administering meets.

The track and field coaches of the EDC appreciate all you are doing to provide a 2020 spring season. We know this season is dependent on many factors out of your control and on decisions made by the State of North Dakota.

The NDHSAA is facing unprecedented challenges. Please know, if circumstances allow, the coaches are willing to help the Association in any and all aspects in order to give the students of North Dakota an opportunity to compete this spring.

We understand the NDHSAA is doing what is best for all people of North Dakota, and are in support of the NDHSAA knowing that the amount of work and responsibilities NDHSAA is facing is monumental. With that, coaches are communicating with each other to brainstorm possibilities and will gladly share them when the need comes.

Thank you for all you do for the children of North Dakota.

Thank you
EDC Track & Field Coaches
