Brian,

The Wahpeton School Board has decided to discontinue the girls' swimming program for the 2026–27 season. Several factors contributed to this decision. Currently, Wahpeton projects only one returning sub-varsity athlete for next season, and participation projections do not indicate enough student-athletes to build and sustain a competitive program at this time.

In discussions with the local swimming club, there is optimism that interest and participation may grow to a sustainable level as early as the 2027–28 season. Wahpeton Public Schools remains open to re-evaluating the program in the future should participation numbers support reinstatement.
